

Overview of iData 80

Inserting a SIM Card

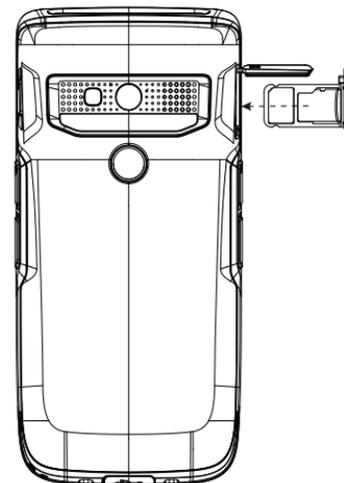

1. Put into card tray holder according to the arrow direction.

(Note: Device uses Nano SIM card, supports all networks.)

Inserting a MicroSD Card

1. Open rubber stopper, push the card tray holder that with MicroSD card installed, into the card slot according to arrow direction, put on rubber stopper.

(Note: Device equips reusable slot of MicroSD card and Nano card; SIM card slot is compatible and same installation way to MicroSD.)

Charging

You can charge a battery by using:

1. Power adapter & USB cable;
2. 4-slot charging stand(to be purchased separately).

Description of charging indicator:

When the battery is in the charging status, the charging indicator is in red.

When the battery is fully charged, the charging indicator is in green.

When the battery volume is low,
(1) a message indicating that the battery volume is less than 20% is displayed on the screen.

(2) the iData 55HC gives out a low battery prompt tone.

(3) the charging indicator blinks in red.

Tips

The following operations help obtain a longer standby duration of the device.

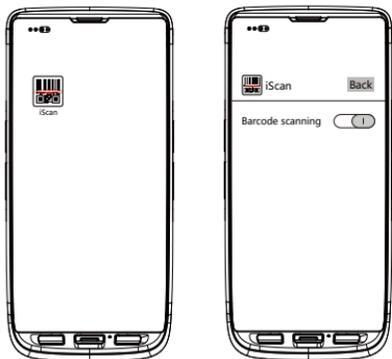

Shorten the time to sleep by selecting Settings > Display > Sleep.
Set the screen brightness to a small value by selecting Settings > Display > Brightness.

Disable functions that are not frequently used, for example, GPS, Bluetooth, Wi-Fi and 3G communication.

Enabling the Scan Function

To start the iScan program and enable scanning, do as follows:

1. Click the iScan icon on the menu page.
2. Click the blue slider on the right of Enable Barcode Scanning to enable the scanning function (if you click the slider again, the scanning function is disabled).
3. Press the yellow key to scan a barcode. When the scanning indicator becomes blue from red and a beep is heard, the barcode is scanned successfully.

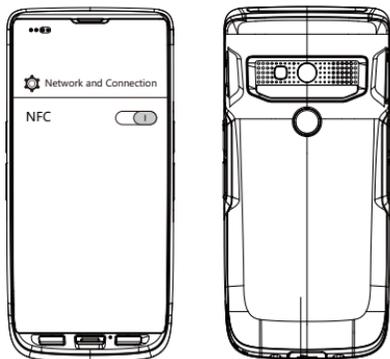

Note: iScan is used to scan barcodes. By default, iScan is installed and scanning is enabled upon delivery of the device. You can download the latest version from the following address: <http://t.cn/8k5hWCo>

Enabling the NFC Function

To enable the NFC function, do as follows:

1. Click the Settings icon on the menu page.
2. Select WIRELESS & NETWORKS/More > NFC.
3. Click the blue slider on the right to enable NFC (if you click the blue slider again, NFC is disabled).
4. Put an NFC card close to the back of the iData 55HC. After a beep is heard, the card is read successfully.
